Pet Styling Symposium

Dallas, Texas

January 29 - February 1, 2010

Part 1

Mastering the Techniques

Scissor Techniques

Let us teach you a proven technique that's guaranteed to improve the quality and speed of your scissor work ...while reducing the risk of neuromuscular injuries such as carpal tunnel syndrome, tendonitis, etc.

Thinning Shear Techniques

Once you've learned how to master "thinning shears", you'll wonder how you ever got along without them.

Hand-stripping Techniques

Hand-stripping is not just for the beauty of the dog, but more importantly, it's an essential process to maintaining the health of Sporting and Terrier coats. We'll help you master the Art of Handstripping ...and show you practical techniques that are easily adaptable for everyday use in the Pet Styling Salon.

...plus DermaTech Preparatory Workshop , part 1

A 8 hour ISCC approved DermaTech preparatory workshop covering canine skin and hair reproductive processes; topical conditioning of canine skin & coat; anatomy of eyes, ears, and airways; and ectoparasites(fleas, ticks, mites) and insecticides.

Master Pet Styling at its best!

Have you ever wished you could attend an advanced level Pet Styling School? **Imagine** yourself continuing your professional growth in an accelerated learning environment taught by a team of Experts that includes highly respected Industry Leaders as well as top winning breeders.

Part 2 **Mastering the Art of Pet Styling**

Indepth Instruction on corrective pet styling techniques for Poodles, Cockers, and Terriers inclusive of Balance, Symmetry, angulation & the usage of Focal Points

*...plus **O**utlining,*

A time proven method of defining the shape of the pattern to be placed on the dog.

Pivot Point Scissoring,

A revolutionary scissor technique designed to reduce the time required to "set in" proper angulation.

*...and the **A**rt of Creating "ideal" Breed Images.*

Let us show you the secret to transforming imperfect dogs into the "ideal" example of their breeds.

Award Winning Pet Stylist are raving about these techniques ...wouldn't you like to know what all the talk is about?
